

CORPORATE INTERNSHIP: International Disability Center

WHEN 1 – 6 months

WHERE Joni and Friends International Disability Center, Agoura Hills CA

COST Varies by Duration and Location (Virtual Internships Available)

Corporate Interns serving at the International Disability Center will have the unique opportunity to gain insight into the insiders view of a disability ministry, non-profit environment. Serving at the Joni and Friends headquarters, interns will gain perspective of our unique culture of integration across our departments and Field Offices. Interns will be paired with one or two departments within Joni and Friends, harmonizing their area of interest and skill sets with their assigned position. Every intern at Joni and Friends is granted the opportunity to use their gifts and talents to further ministry to those affected by disability.

Our desire is that every intern be adopted into the family and culture of Joni and Friends. If you serve with us your internship will not only contain daily tasks and projects, but also intentional times of training and mentorship. Our hope is that this internship will develop you as a young leader, helping take you to the next step in God's journey for your life. Whether you're pursuing Christian ministry or want to learn how to use your technical skill set to serve the disability community, we want to help you envision your future and meet your goals.

Each internship is designed around the needs of the intern and the availability of the department. We do our best to create an internship around your schedule and according to your objectives. However, not all departments have the capacity for an intern during every season. If you desire to fulfill a requirement for school, please send all information and internship requirements to Internships@joniandfriends.org. Please contact us for a list of placement options at our International Disability Center.

Corporate Internships are available any time of the year and are flexible in length. The Internship department will facilitate a host home and transportation for the internship, if needed. Interns needing these services should budget around \$60/day for their internship costs.

"The experience I gained through this internship has prepared me to run my own non-profit. My plan is to start a non-profit that specializes in adoptions for children with disabilities".

Corporate Intern – Joy Mayo

*Scholarships are available on a first-come, first-serve basis. College credit may also be available depending on the requirements of your university.
